

Yaelle(Yueyang) Tang

(+1) 341-230-8238 • [Email](#) • [Portfolio](#) • [Linkedin](#)

Bilingual data journalist investigating public health, housing equity and government accountability with a focus on interactive visualization and digital storytelling.

Education

University of California, Berkeley (August 2025 - May 2027)

Berkeley, CA

Master of Journalism, Data Journalism

Communication University of China (September 2021 - June 2025)

Beijing, China

Bachelor of Arts, Data Journalism Reporting

Experience

The Philadelphia Inquirer • Data Journalist (June 2026 - August 2026)

Philadelphia, PA

- Analyzed Philadelphia property reassessment data in R for three published stories, two of which ran on A1; one on property tax inequality was the most-read story of the day.
- Created data visualizations with Dataviz, ArcGIS, and Adobe Illustrator across print, desktop, and mobile formats
- Built an interactive tool for property tax relief programs using front-end web architecture

Richmond Confidential • Data Journalist (August 2025 - February 2026)

Bay Area, CA

- Pitch, report and produce data-driven stories covering Richmond, CA for hyperlocal website
- Identify patterns in city budget allocations and environmental data to surface systemic disparities affecting underserved communities

The Paper • Data Journalist (April 2024 - September 2024)

Shanghai, China

- Pitched and produced data-focused features, including an investigation into deceptive advertising hidden in banner images in China's e-commerce myopia correction market.
- Covered social, cultural and AI technology trends through data visualization
- Scraped, cleaned and analyzed public data to support visual storytelling across platforms

Communication University of China • Data Reporter (September 2023 - July 2024)

Beijing, China

- Led data analysis and visualization for investigative journalism projects on social equity and public health; won First Prize at the 8th and 9th China Data Journalism Competition
- Built interactive websites for stories and managed version control through GitHub

Oriental News Corporation • Multimedia Journalist (June 2023 - September 2023)

Shanghai, China

- Conducted interviews, edited short-form social media videos and coordinated production workflow for daily multimedia coverage
- Analyzed live audience data to optimize content strategies and strengthen engagement

Skills

- **Languages:** English (fluent), Mandarin Chinese (native) and Shanghaiese (native)
- **Tools:** Adobe Suite, HTML/CSS/JS(D3, Svelte, React), Python, R
